Осветителните тела за вграждане с луминесцентна лампа T26 (26мм) са специално проектирани за вграждане в окачен таван, което прави тяхната поддръжка лесна и практична.

Корпус: от метал, с антикорозионно покритие и прахова боя.

Отражател : от полиран и матиран алуминий. Освен единичен-параболичен, двоен-параболичен и потъменен отражател, се предлага и призматичен такъв.

The mounting and the maintenance of the recessed luminaires with T26 (26 mm) is very easy and practical and also been designed to meet the lighting requirements of the suspended ceilings.

Body: is made of metal sheet and before the painting process, first coated with iron phosphate against any corrosion and later plated with an electrostatic powder.

Louvre: made of matt and bright aluminium material of high purity. Besides the single parabolic, double parabolic and dark light,
